Establishing the Startup Ecosystem in Hungary

Antal Nikodémus
Head of Department
Ministry for National Economy
Department for Innovation and R&D

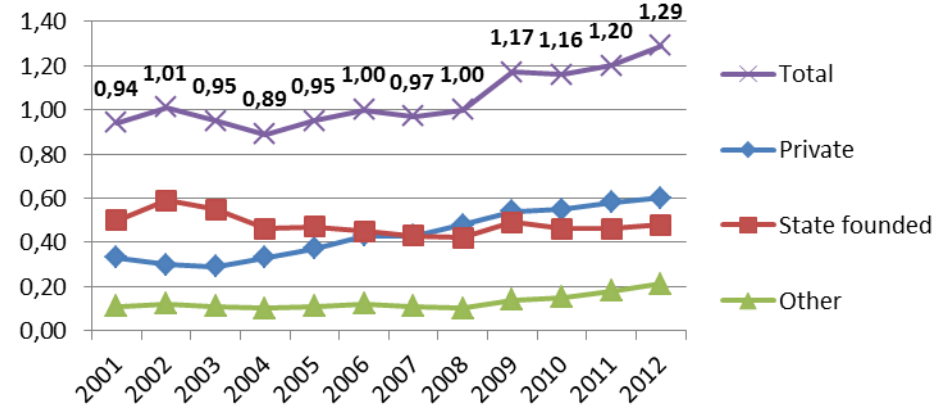

16th October 2013.

Ambitious vision: by 2020 Budapest will be the startup capital of the region

GERD as a percentage of GDP

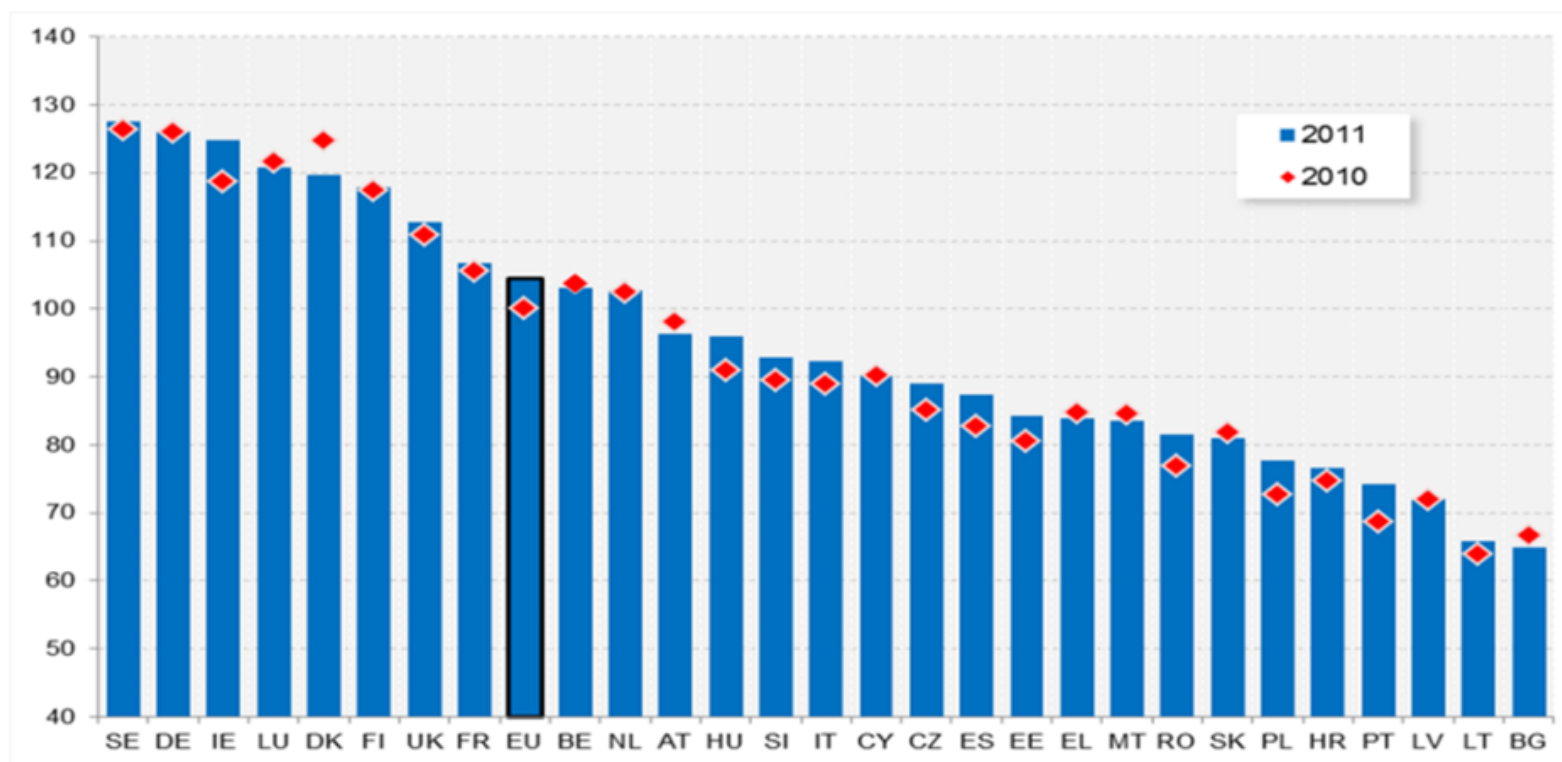

R&D expenditure in Hungary between 2001 and 2010

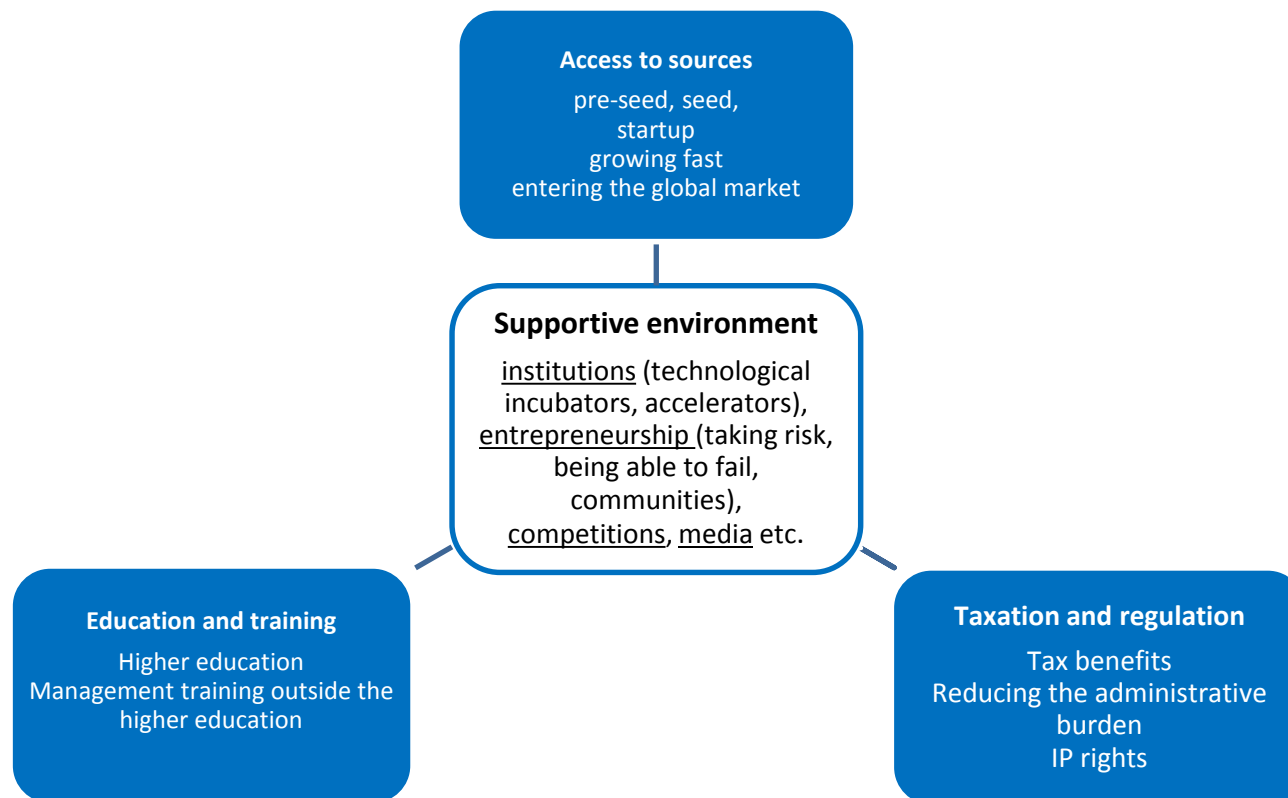

Innovation output scores: 2010-2011, source: EC

Basic elements of a startup ecosystem

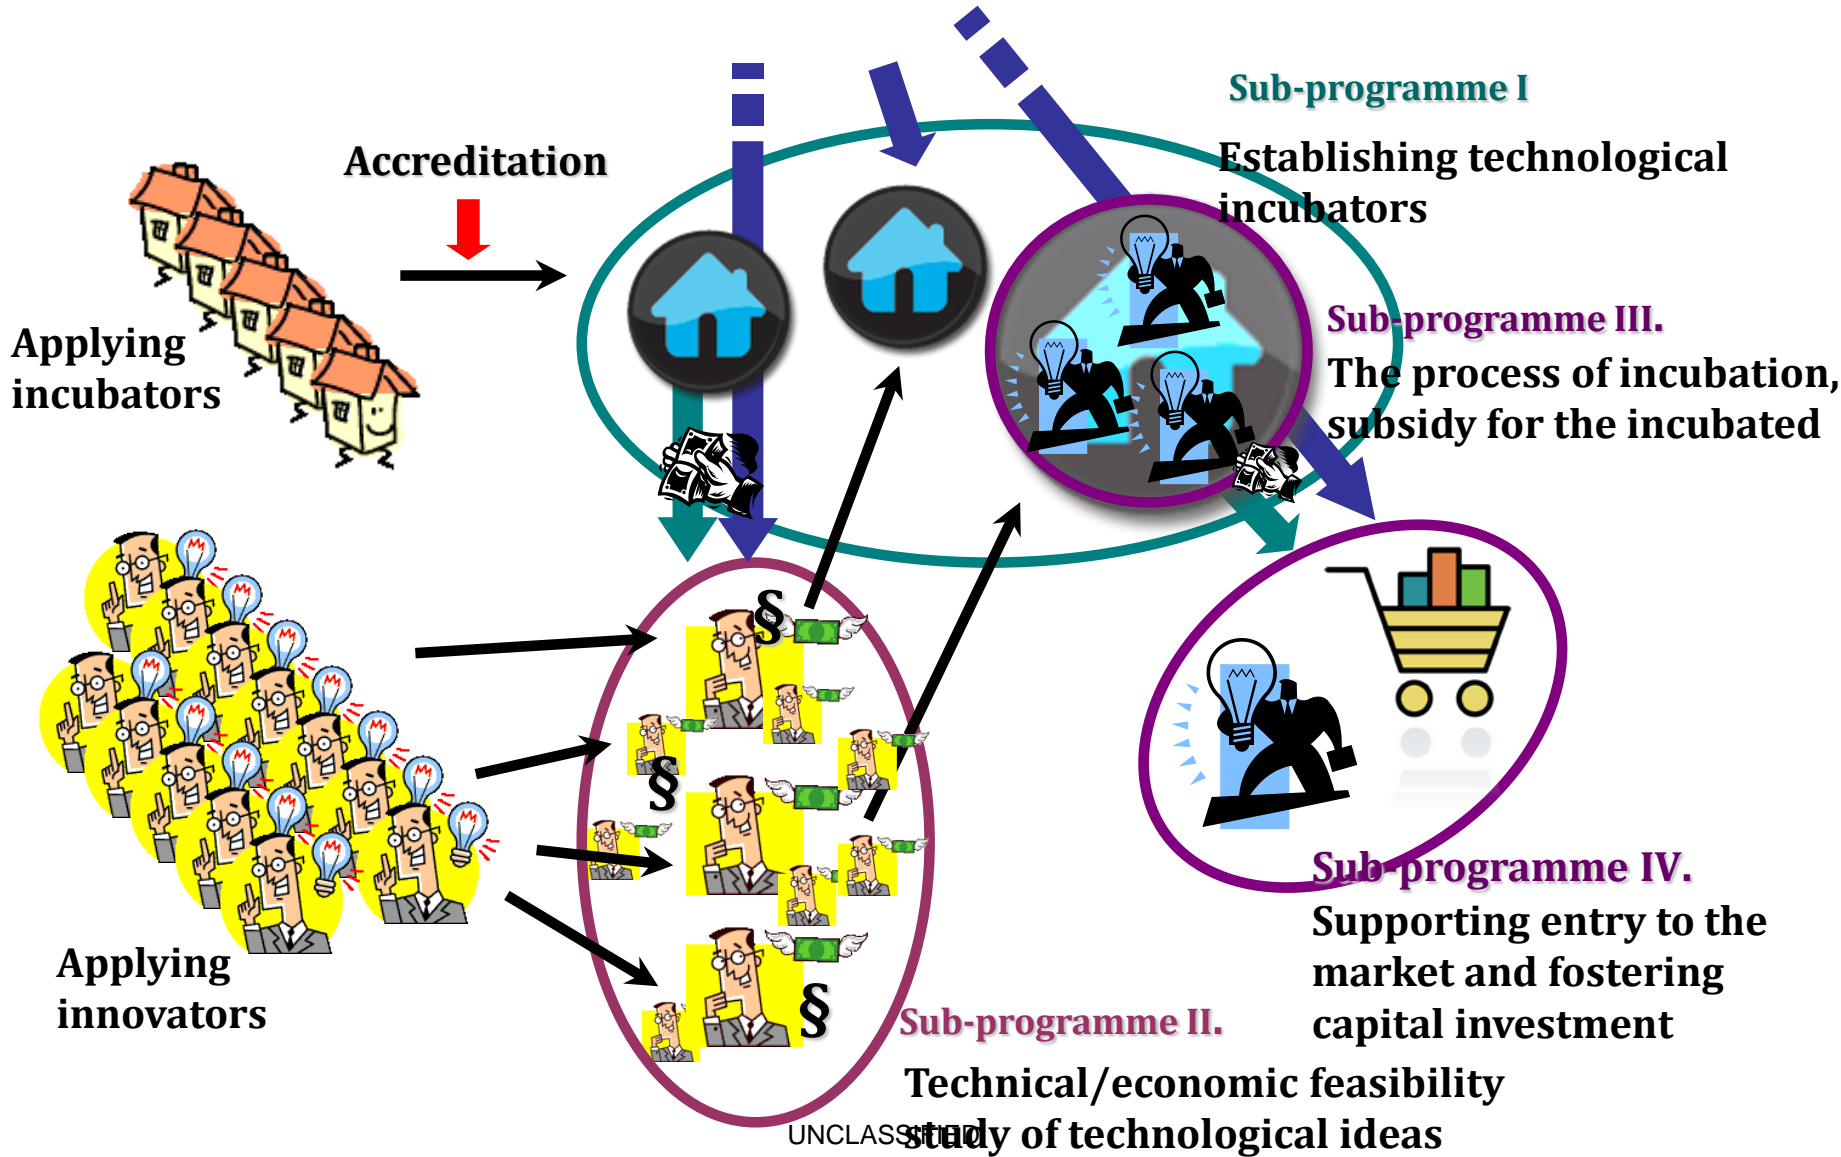

Accredited Technology Incubator programme

Objective:

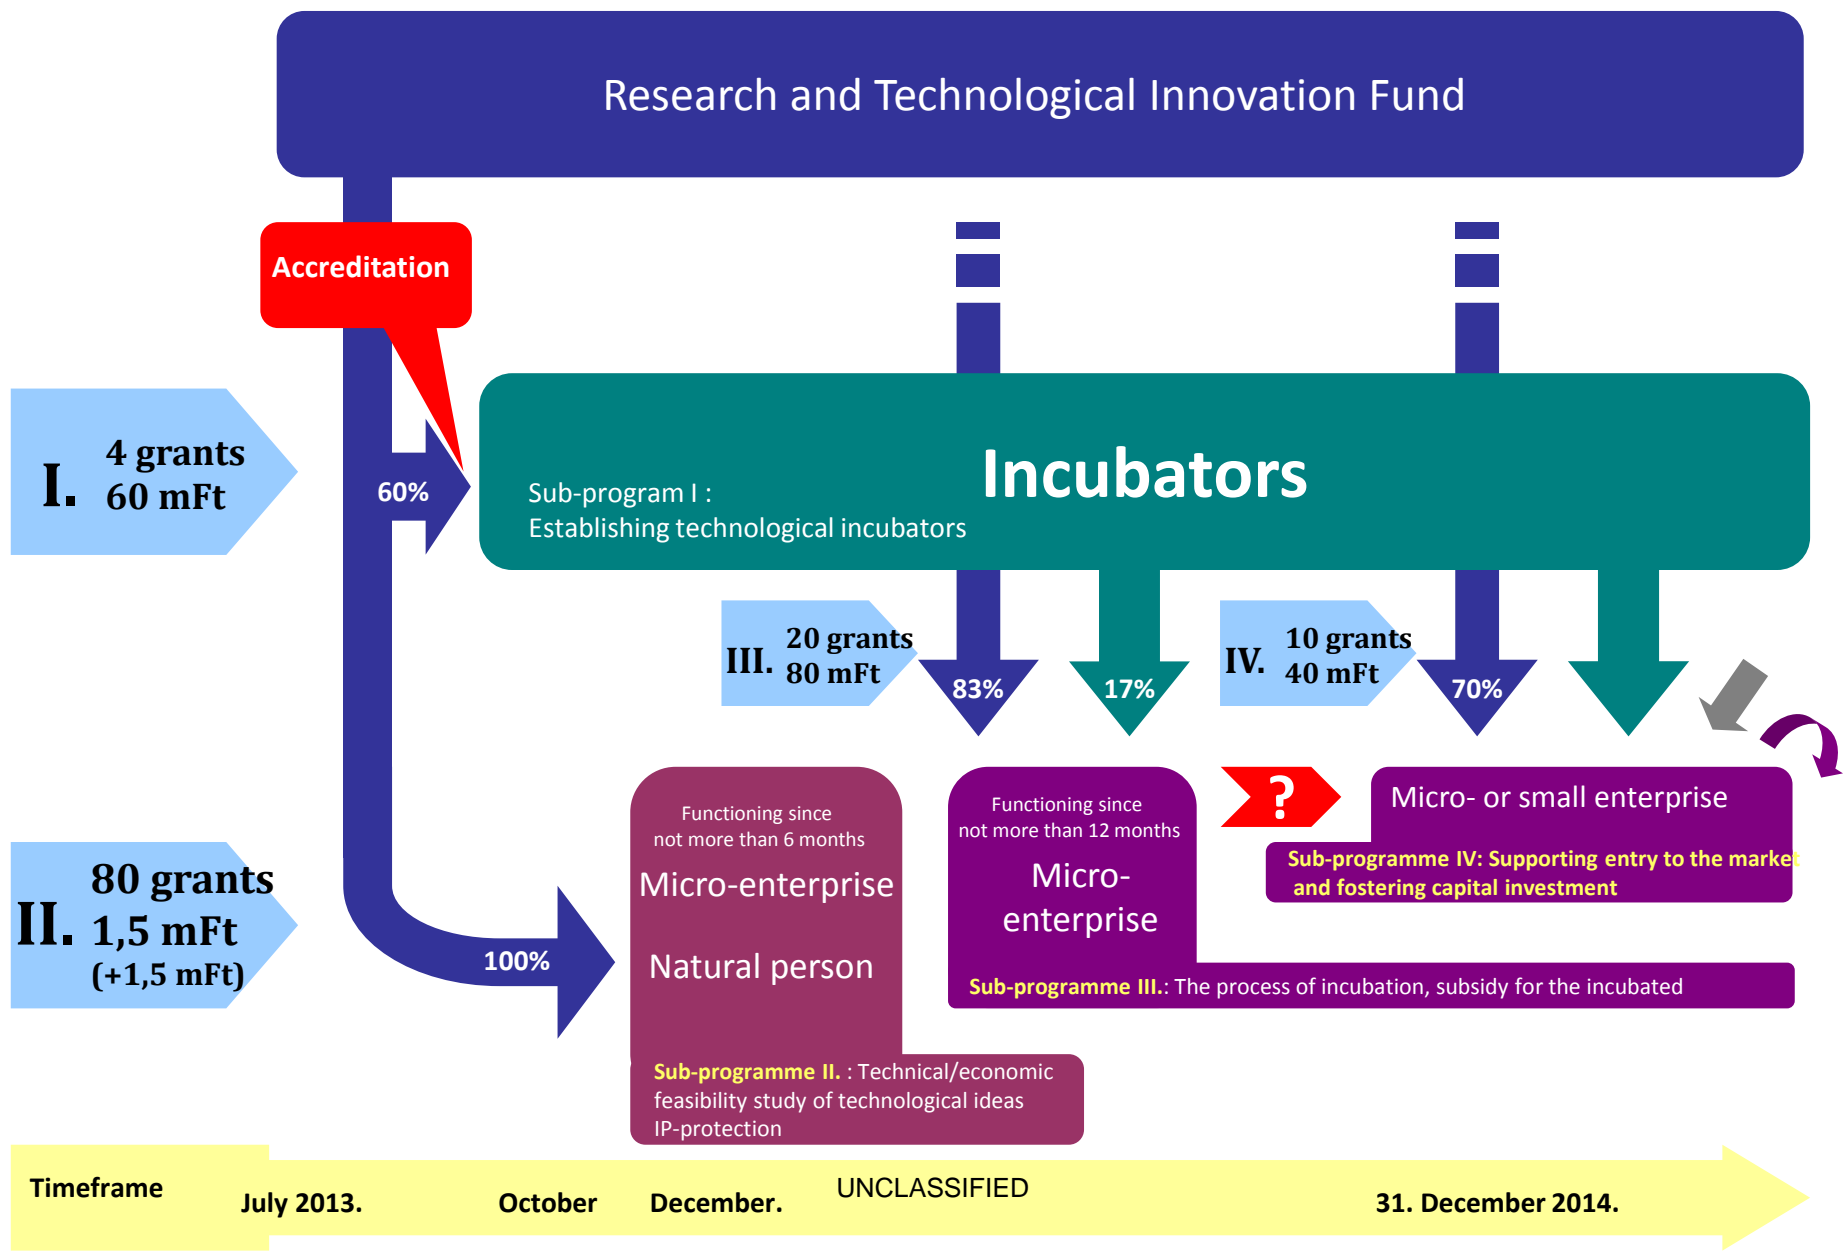

- select and accredit technological incubators that are competitive on international markets
- promote the build-up of start-up enterprises founded on R&D results achieved in Hungary or even in neighboring countries
- contribute to the successful completion of their R&D projects and undertake to provide capital investment
- the parties awarded the title of Accredited Technological Incubator will have the option to enter Sub-program I in the call for proposals “Technological start-up ecosystem development“(Startup_13), which is announced to the debit of the Research and Technological Innovation Fund
- International jury
- 20 applicants – 4 winners
- results have been communicated 15. October

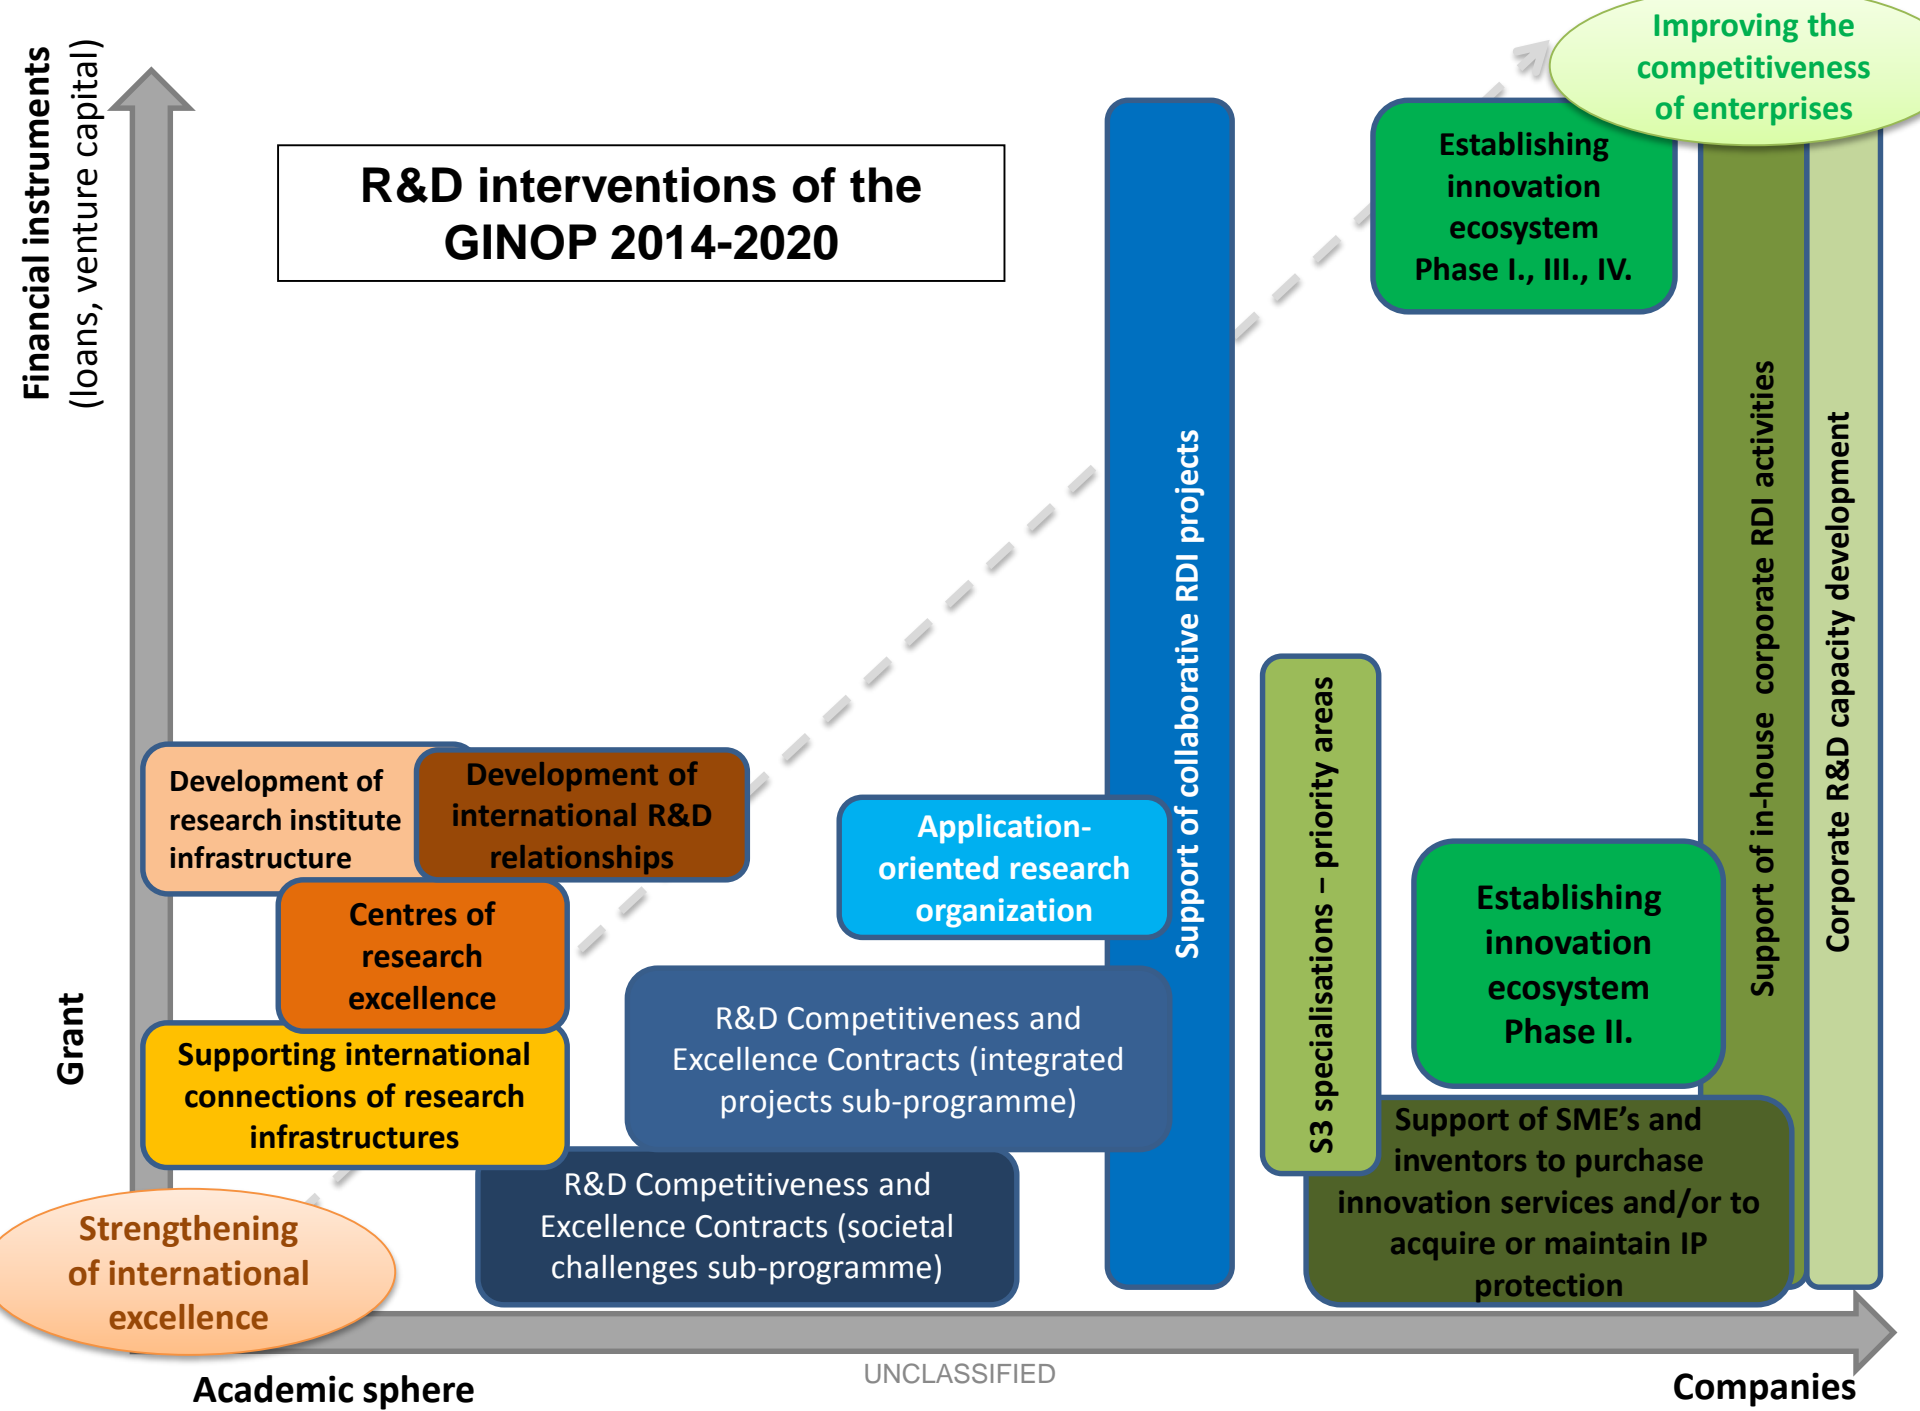

Structure of the Start-up_13 programme

Research and Technological Innovation Fund

Start-up_13 Accredited Technology Incubator programme

Budapest HUB working group

- Initiated by state secretary Cséfalvay from the Ministry for National Economy
- Participants: stakeholders from the Hungarian startup community
- Task: gathering inputs for the common vision – Budapest as startup capital of the region
- Next meeting: 22. October
- Goals:
 - to achieve a common understanding by the second half of November
 - To adopt a „Startup-manifesto”
